

**CALL THE OFFICE TO HEAR SEASONAL SPECIALS!**

"Invisalign has continued to work with our growing practice here in Bedford, as well as the needs of our patients. The biggest difficulty we have found is that patients all have different levels of orthodontic needs. Invisalign has developed different levels of treatment to offer our patients, so they have more options and opportunities to invest in their healthy smiles." - Dr. Joe

### **ULTIMATE FULL CASE: \$5,250.00**

This is the more complex case; including 5 years of additional adjustments or refinements as needed to achieve your ideal smile.

### **LITE PACKAGE: \$3,226.00**

This is a step beneath the Ultimate Full; meaning not as much movement is required to get to your ideal outcome. This also comes with 2 sets of additional aligners for minor adjustments if needed.

**Please note that all Invisalign treatment begins with a \$250 records fee. This includes impressions, photos, a panoramic x-ray and a virtual viewing of the stages, and the projected outcome once finished with your case. This step lets Invisalign determine which case would be right for you!**

- **At the end of your Invisalign treatment, there is a \$415 charge for (4) sets of Vivera retainers to keep teeth in their final position.**
